AMERICAN EGG FARMERS' 2021 PLEDGE TO ADDRESS HUNGER

U.S. egg farmers have long supported families in need through egg and egg product donations. Now, with the mission to nourish America's families more urgent than ever, we are proud to continue to provide for our communities in need.

We pledge...

- To work collaboratively to address hunger in America.
- To support American families facing food insecurity by encouraging equitable access to sustainable nutrition.
- To donate more than 90 million eggs directly from our farms to food banks in need in the wake of COVID-19 — doubling our donation of 46 million eggs in 2020.
- To provide wholesome, nutritious eggs with powerful nutrients to Americans everywhere, every day.
- To offer insight and science-based resources about healthful eating, nutrition and dietary guidance about eggs.

Thank you,

Steve George
Chairman
The American Egg Board
